Oktoberfest
Oktoberfest is a 16-18 day festival held each year in Munich. It is the largest (public) festival in the world, each year attracting over six million visitors (72% Bavarians and 15% tourists).

Traditionally, the festival begins on the first Saturday after September 15th and ends on the first Sunday in October. If the first Sunday in October is October 1st or 2nd, then the festival is extended to October 3rd to include the German Reunification Day.

The festival in Munich consists of lots of beer and food, served in huge tents owned by different breweries, restaurants, and other establishments. There are bands playing traditional Bavarian music, as well as modern bands in the evening hours that play rock, pop, and dance music. To keep with tradition, many visitors wear the traditional clothes: Lederhosen for men; Dirndl dresses for women. Many amusement rides also provide visitors with additional excitement - these include a ferris wheel, roller coaster, and many other rides.
Games

Our game this week is a simple one! Pumpkins are out in full force now and their make for some easy games. You can purchase 8 mini pumpkins, 4 white and 4 orange and use them to play a fall version of tic tac toe.

Or, find 3 larger pumpkins with large stems. Cut out the center of paper plate or use glow in the dark necklaces to play a simple ring toss.

Simple, easy, but lots of fun and a great way to use outside fall decorations for fun!

Paper Strip Pumpkin

What you Need:

- Two pieces of white paper
- A few pieces of fall colored paper (orange, brown, cream, red, etc.)
- Scissors
- Green tulle
- Twine
- Glue (a glue stick is easiest)
- Hot glue gun

Directions

1. Start by cutting a pumpkin shape out of the center of one of your white pieces of paper.
2. Next, cut several strips of colored paper. We used some paper with patterns on it, which gave our pumpkin some added texture. But if all you have is solid color paper, that works too!
3. Once you have all your strips of paper cut, use a glue stick to paste them onto the second sheet of white paper.
4. Lay the strips side by side or overlap them until the entire area where the pumpkin will be is filled.

5. Paste your pumpkin cutout over top of the strips of paper.

6. To make the leafy area cut a few pieces of green tulle, about 6 inches long, and tie them together in the center with a knot.
7. To make the stem, start by hot gluing one end of a piece of twine to the back side of the knot in the center of the tulle. Loop the twine around the knot, leaving about two inches of slack.
8. Make four loops with the twine and hot glue the end to the back side of the tulle.

9. Hot glue only the base of the stem onto the paper at top of the pumpkin.
10. Twist the twine around to make it into a stem shape.
11. Then glue the stem onto the paper with hot glue.

Music

Music is a great way to engage different areas of your brain. There are some lyrics to songs below, but if you don’t know the tune, you can play your favorite songs on YouTube and search for the lyrics online.

Pro Tip: You can put rice, beans, or something similar inside several of those plastic Easter eggs or an empty water bottle, seal them with some tape, and use them as noise makers for while you are singing!
